

DI GIOVANNI BULGARI

IGT TOSCANA

Grapes: Sangiovese, Cab. Sauvignon & Merlot

Size: 18 hectares

Training System: Spurred cordon e guyot

Soil: Clayey with limestone stripes

Production: 60 QL per hectare

Wine making process: Soft pressing of the grape bunches, some of the berries are kept intact to obtain a partial carbonic maceration to enhance the varietals hints.

Alcoholic fermentation and maceration at controlled temperature (25) in stainless steel basins or concrete vats from 15 to 25 days. From 2 to 3 remontage per day. Malolactic fermentation in barrique, and ageing in 225 litre barrique from 8 to 10 months. Blending in concrete vats from 4 to 6 months. filtration and bottling.

TASTING NOTES:

The nose shows dark berries, such as raspberries and blackberries, hints of oak and balsamic overtones.

It is a medium- to full-bodied wine with bright acidity and firm, robust tannins. Linear and sophisticated. Mainly Sangiovese with a small portion of Merlot and Cabernet Sauvignon. To be tried after 2024. Long aftertaste.

Drinking window: +15 years
